

Pre-owned machines

A great way to save money

Canon

Panasonic

SHARP

Due to the success of our recent sales efforts we've got lots of trade-in machines in stock and others due in soon.

These pre-owned machines offer a really cost-effective way for small businesses/departments/temporary offices to have access to copying, printing, scanning and finishing.

We have a wide choice of equipment available from leading manufacturers including Canon, Panasonic and Sharp. They range from fully featured copiers with printing and finishing to small desktop machines ideal for departmental and small business use.

You can buy the machines outright, finance them over a fixed period or rent them short-term, for as little as a week, with no commitment. You also benefit from full service support from our own engineers at a low fixed cost per copy.

Whatever you choose, pre-owned machines are a low-cost, environmentally friendly way to improve your productivity.

There's a small selection from the range featured overleaf, but for the most up to date stock availability and prices, call us on the number below or visit www.weaverdigital.co.uk
